THE REPLY FILED <u>09 February 2009</u> FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.
1. 🛮 The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of the

application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

a) The period for reply expires 3 months from the mailing date of the final rejection.

b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filled is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.70(d).

NOT	ICF	OF	AΡ	PEAL

The Notice of Appeal was filed on _____ A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of

AMENDMENTS	

3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);
(b) ☐ They raise the issue of new matter (see NOTE below);
(c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for
appeal; and/or
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: ______ (See 37 CFR 1.116 and 41.33(a)).

The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
 Applicant's reply has overcome the following rejection(s): ______.

Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
 The purposes of appeal, the proposed amendment(s): a) ___ will not be entered, or b) ___ will be entered and an explanation of

For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: _____.

Claim(s) objected to: _____.
Claim(s) rejected: _____.

Claim(s) withdrawn from consideration:

AFFIDAVIT OR OTHER EVIDENCE

8. The affidavit or other evidence flied after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).

9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will <u>not</u> be entered because the affidavit or other evidence failed to overcome <u>all</u> rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).

10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

/THOMAS A DIXON/

Supervisory Patent Examiner, Art Unit 3696

Continuation of 13. Other: Applicant's arguments filed 02/09/2009 have been fully considered but they are not persuasive. Applicant argues that 1) the combination of Bricklin into Weibel would destroy the intended operability of Weibel 2) Weibel teaches away form the use of an electronic spreadsheet for an invoice, 3) the rejection does not provide the requisite articulated reasoning with a rational underpinning ot support the conclusion of obviousness 4) the independent existence of spreadsheets does not negate unobviousness and 5) even if properly combined, the claim elements simply would not be met. The Examiner disagrees. The test for obviousness is not whether the features of a secondary reference may be bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all of the references. Rather, the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. See In re Keller, 642 F.2d 413, 208 USPQ 871 (CCPA 1981). The examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See In re Fine, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and In re Jones, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). Weibel, Bricklin and Thompson are all directed toward invoice system. Weibel ('837) fails to explicitly disclose the customer electronic invoice is generated by adding an additional data field to the data fields in the electronic spreadsheet and/or by altering a data field in the electronic spreadsheet. Bricklin ('939) teaches an electronic invoice comprising an electronic spreadsheet having modifiable data fields therein, see Fig 3 of Bricklin. Thompson ('552) teaches generating invoice (see figure 2 (210)) and changing electronic invoice by modifying/altering fields, see at least Abstract of Thompson. Therefore, the Examiner asserts that it would have been obvious for one of ordinary skill in the art at the time the invention was made to modify Weibel's invention to include the customer electronic invoice is generated by adding an additional data field to the data fields in the electronic spreadsheet and/or by altering a data field in the electronic spreadsheet. One would be motivated to do so for the benefit of modifying invoice data more easily. Since the claimed invention is merely a combination of old elements, and in the combination each element merely would have performed the same function as it did separately, and one of ordinary skill in the art would have recognized that the results of the combination were predictable. Therefore, Applicant's arguments are not persuasive.
